P.O. Box 4031, Upper Marlboro, MD 20775

## *The One-Sided Class War Against the Working Class Must Be Defeated!*

The Center for Labor Renewal, and its companion Solidarity Education Center, "have been formed in the belief that there is the need for an alternative voice and the creation of a new paradigm for the revitalization of the U.S. Labor Movement...[one]...that is radically different from business-as-usual-unionism...and part of a larger progressive social movement in this country." (from CLR Call)

To meet that challenge and provide the financial support for CLR & SEC programs, we are **recruiting CLR Member/Supporters at a minimum \$30 contribution per year**, and **soliciting tax deductible contributions to the Solidarity Education Center**, a 501, C-3 sponsored organization. (clip-off forms provided below).

Workers everywhere are under relentless attack. We need a vibrant, democratic, class-wide labor movement that acts to create for a new consciousness of resistance and collective struggle that connects all forms of working class organization in a new social movement. The Center for Labor Renewal is committed to those objectives. Please print and circulate this message and forms to your colleagues and co-workers.
